JUSTICE AND RIGHT

VOLUME XLVI

GRAYLING, MICHIGAN, OCTOBER 16, 1924

OSCAR P. SCHUMANN, Editor and Proprietor

NUMBER 41

PARAGRAPHS CONCERNING MICHIGAN

(By Ed. A. Nowack.)

Lansing, Oct. 16.—County treasurers of Michigan are to be asked by the Department of Conservation to deputize game wardens in their respective territories for the purpose of safeguarding state owned timber lands. Game wardens have no authority to halt such trespassing when they find it until much red tape has been unwound. County treasurers, who have the authority, have no means to enforce their demands until red tape is unwound. Game wardens, on patrol duty, find many places where state owned land is being robbed of its standing timber. When the proposed step is taken game wardens, as deputy county treasurers, can demand to see tax receipts on land from which timber is being removed. If there are no receipts forthcoming someone is sure to be in bad.

It's interesting to note that forest, bush and swamp fires discovered by fire wardens using forest fire towers in Michigan burned over an average acreage of about two acres, while such fires that were not discovered thru use of the fire tower burned over an average area of 67 acres. These figures are given out by the Department of Conservation as an argument in favor of increasing the 95 forest fire towers now serving Michigan's danger zone.

In Wildfowl Bay, near Saginaw, an island has come into being since the last official survey of 1853 when the government failed to chart the island because it was not there. Recent efforts to obtain possession of the island have proven futile. The attorney general's department holds the island belongs to the state and its people, due to the fact that water recession and land accretions are responsible for the land.

The average number of thunder storms per year at Grand Haven is 24, while at Lansing it is 42. The snowfall is considerably greater near the lakes, however, especially along the southern coast of Lake Superior and the eastern coast of Lake Michigan. In the former section usually 100 inches of snow falls each winter while along the Lake Michigan shore the average is from 50 to 60 inches per year. In the state's interior the average snow fall is around 30 to 60 inches annually.

DID YOU KNOW THAT—Michigan will be mining the same quantity and quality of iron ore 100 years hence as she mines now, according to geologists.

The Pennsylvania railroad system, operating extensively in Michigan, employ a force of 25,000 trackmen on all its lines.

During the fiscal year 432 samples of commercial feed were analyzed by the Department of Agriculture. Of that number 378 samples were collected by department employees, the remainder being sent in by citizens.

Twenty one stringent rules compose the regulations governing sale and handling of feed stuffs in Michigan. The rules are laid down by the Commissioner of Agriculture.

The first beet sugar factory in the state was erected at Bay City in 1898.

The Michigan Agricultural College began in 1909 the distribution of pedigreed grain seed. Soon afterwards a group of farmers organized an association for the promotion of the use of superior purebred seeds.

In 1908 the Michigan State Board of Agriculture listed 55 varieties of potatoes as grown in Michigan. To-

"DO OR DIE"
Did somebody say "it can't be done?" Did somebody say "it's no use to try?" Why, that's not the spirit we want at all.

But the spirit of do or die.

Just tackle the problem and get to work.

There's no place in school for the coward or shirk.

Perhaps it is hard and you think there's no end.

Don't you know it's a long, long road which has no bend?

And then at last when your problem is done,

You will know the joy of having won.

Jokes.

Son: "Papa tell me a joke."

Papa: (Interested in his paper) "How about mamma?"

Lillian Ziebell: "Miss Fox is sick in bed today."

Ernest Hoelsi: "That so? What's the complaint?"

L. Z.: "No complaint, everybody's satisfied."

Miss Sharpe: "What does a king sit on?"

Bert Trudo: "On his throne."

Miss S.: "Now, Bert, construct a sentence using the word 'throne' correctly."

Bert T.: "Father gave me such a licking that I can't sit on my throne."

Albert Schroeder: "Got a nail in your tire?"

York Edmund: "Now, ran over a fork in the road."

Pete: "Why did you fall for me?"

Belinda: "Your line was just long enough to trip me."

Miss Hanson: "Well, what did your father talk about last night?"

Daughter Agnes: "Kith and kin."

Small brother: "Oh, I see, he said 'May I kith you,' and you said, 'Yes you kin.'"

Miss Shankel: "I had to funk you in the test, do you know why?"

Anna S.: "I haven't any idea."

Miss S.: "Just exactly."

An average woman gets off a joke

day this number has been greatly reduced.

Pioneer French settlers are credited with having introduced to Michigan the pear and apple trees.

About the time Michigan had attained statehood she already was shipping peaches from the mouth of the St. Joe river and tame grapes were growing close to Grand Haven. Wild grapes, in luxurious profusion, grew along the banks of the Raisin river, Monroe county.

The State Horticultural society was established in 1870.

Sixty-seven out of 88 counties in Michigan have registered cream and cheese factories in operation. Wayne and Monmouth counties lead in the number operating.

O. B. Fuller, auditor general, has been endorsed for public office by his home county of Delta for 30 consecutive years.

Weather bureau observations in Michigan are taken on the M. A. C. campus, three miles east of Lansing.

A small section of Crawford county, Oscoda, Ogemaw and Roscommon counties have an average growing season of 110 days per year while the remaining sections of the counties named have an average growing season of 120 days.

COOLIDGE LEADS IN STRAW VOTE

DAVIS RUNS POOR THIRD IN GRAYLING.

A straw vote conducted in Grayling by the Detroit Times the first of the week gives Coolidge 146; LaFollette 87 and Davis 13.

The ballot asked for the following information: Choice of one of the three leading candidates; what party ticket voted at the last presidential election; and what party now belonging to.

The Coolidge vote was made up from mostly of Republicans and a surprisingly large number of Democrats. Two claiming to be republicans voted for Davis. LaFollette's vote came from members of both the Republican and Democrat parties.

About 200 ballots were distributed among the school children with instructions to carry them home to their parents and return them filled out. Also ballot boxes were left at each drug store and at the Olex Sorenson & Sons' store. It is intended that a more extensive poll will be taken later.

about as successfully as she gets off a jinx-bus.

Albert S.: "Will that watch tell time?"

Ruby S.: "No, you will have to look at it."

Miss Thomas: "You act very foolish at times. Can't you get over it?"

Marian R.: "I have tried, but my mother makes me sleep in a crazy

quit."

Freshmen Yell.

Rah! Rah!

Ma! Ma!

Pa! Pa!

Help!

Freshman: "My feet are going back on me."

Sophomore: "Why don't you turn around and walk backwards?"

Emery C.: "What's the matter, freshman, bothering you?"

Wayne E.: "Yes, I owe Howard five dollars. I've got it and he knows I know he knows I've got it."

Sophomore: "Did you ever hear a day break when night falls?"

Junior: "No but I've seen a son beam when the moon shines."

Don: "I dreamed that I died last night."

Edgar D.: "What woke you up?"

Don: "The heat."

Miss Harris: "In how many wars was the United States engaged?"

Russell R.: "Five."

Miss Harris: "Enumerate them."

R. R.: "One, two, three, four, five."

Albert Schroeder (to small brother): "Look the door before you go out."

George S.: "How'll I go out then?"

Albert S.: "Go in before you go out and unlock it from the outside so we can get in if we are locked out."

Mr. Burnham: "Don't cry, little boy, you'll get your reward in the end."

Keith Wheeler: "I hope so, that's where all do get it."

Why Some Come To School.

To get more sleep—Ernest Larson.

To get out of doing dishes—Marian Reynolds.

To tease the girls—Edgar Douglas.

Nothing else to do—Ernest Hoelsi.

To amuse the boys—Lucilla Collier.

To give E's the teachers.

To give (no credit) slips—Miss Harris.

To play football—The team.

Personals.

Lena Diffe and Grace Nelson seniors in the class of '24 were up to visit the High school Monday afternoon.

Don't forget the entertainment by the "Powers Trio" which will be given Friday evening at eight o'clock in the High school auditorium. This is a very worth-while concert and you cannot afford to miss it. Also it is being sponsored by your own "Girls Glee club" and you should attend it for that reason if for no other.

The admission is not high. 25c for those under 14 and 35c for those over 14. The net proceeds will be for the very young but have had a great deal of musical training since they were old enough to hold an instrument. Get busy and buy your tickets from any of the members of the Glee club and urge your friends to do the same.

First number on the Redpath Lyceum course.

Watch for particulars next week.

Now that the world series is over with there is a much better attendance at school in the afternoon.

Loela Cameron has left school but will attend in Detroit.

The Senior class will hold a meeting Tuesday to discuss the Lyceum course, which is to begin November 4th.

Cost of Living.

What is the cost of room, board and laundry for full time non-resident woman teacher for one month of 28 days? Is the cost of these items lower for the present year than the previous year? How does it compare with other towns?

Athletics—The Ball.

The basketball team will soon start their practice. We want to have two of the best teams this school has ever had.

Foot Ball.

The foot ball team under the instructions of Coach Burnham expects to play Harbor Springs Friday. The team lost their first game, but have been right at practice in order to show the people they will win their second game.

The Harbor Springs team are in the C class, the same as Grayling, but

PRESIDENT OF DETROIT BOARD SAYS EDUCATORS UNANIMOUSLY OPPOSE AMENDMENT.

Allen Campbell, president of Detroit board of education, when asked his opinion on the proposed amendment to abolish private and church schools said:

"The proposed school amendment to the state constitution has not the approval of any educators of whom I have knowledge. It is not put forward by educators having at heart the advancement of education. It has not the approval of the public school authorities.

"On the contrary it is to be severely condemned as an interference with our educational system. It is wholly impracticable and not to be thought of by anyone acquainted with conditions.

Under State Supervision.

"We now have in this state the necessary supervision over all schools, public, private and denominational under the state commissioner of public instruction. And the officials and teachers of the non-public schools are co-operating with the state unit city authorities in a commendable way, seeking to establish and maintain a uniform standard whereby their children are graduated into the high schools and colleges on the same basis as public school graduates, and whereby their teachers qualify themselves by normal training on a basis of standardization and harmony.

"Should this amendment pass, a chaotic condition would result. Each year the board of education strives to carry out a building program that will adequately seat the public school children, but each year we are some 16,000 seats short of the necessities for the ensuing year. This results in placing thousands of public school children on half-day sessions.

Would Add 100,000 Pupils.

"Should 150,000 public school children be suddenly augmented by 100,000 parochial school children the result would be that 100,000 children would be placed on half-day sessions.

"The proposal is so ridiculous, impracticable, and even if it could be carried into effect without chaos the burden imposed upon the taxpayers, who now escape the cost of educating these parochial school children, would be very great and without cause.

"So much for the impracticability and the cost. But to my mind, even more important objections lie against this proposed school amendment. As a lawyer, I believe it to be unconstitutional. As a member of the public school board, I believe it to be unnecessary. As a citizen, I believe it to be a violation of the spirit of the founders of the nation, who established freedom of education, of opinion and of religion. It is illegal. I believe in state supervision of the standards of education, but to compel parents to accept a compulsory course of education and to wipe out private and denominational schools, I regard as illegal, unfair and un-American." Free Press.

have a very good team. They played with Petoskey, which is of B class, and won by a score of 73 to 6, and the Petoskey team won from Cheboygan by a score of 26 to 0.

This ought to show that it will be a very exciting game, so patch up your ears and follow our boys to victory.

Why did the foot ball team lose their first game? Why because the town or school lacks spirit. Why not join in together and have some school spirit and encourage the boys. No team could fight to win a game without any spirit-back of them for encouragement. Why is Harbor Springs winning all their games? Because they don't lack a bit of spirit or pep. Let's go!!!

FORD WITHDRAWS MUSCLE SHOALS BID

SAYS BUSINESS CANNOT WAIT ON SLOW POLITICAL MANEUVERS.

NEXT MOVE UP TO GOVERNMENT

Says Company Has Bought Lands and Can Generate Cheaper Power Than At Shoals.

New York—Henry Ford has withdrawn his bid for Muscle Shoals and, according to an interview with him in the current issue of Collier's Weekly, has assumed a waiting attitude by putting it up to the government to make the next move if he is to take any further action in the matter.

The transaction, characterized by Mr. Ford as "a simple affair of business which should have been decided by anyone within a week," he declared, "has become a complicated political affair," and the bid was withdrawn because "productive business cannot wait on politics."

Asked if that meant withdrawing absolutely from Muscle Shoals and everything that pertains to it, Mr. Ford replied:

"Yes," we have made our bid; now let them make us a bid. And they will not have to wait three years for their answer. We can tell them in five minutes."

Mr. Ford said his company had completed the purchase of 160,000 acres of coal lands in Kentucky and after relating some of the experiments conducted at the River Rouge plant, said:

"We find from our experience at River Rouge that we can generate electrical power in these coal lands to any extent that we may need and at a cheaper rate than we could under our bid at Muscle Shoals. And also we can generate in our own way entirely outside of all political influence or political meddling. That is why we have lost our interest in Muscle Shoals."

HUGHES ATTACKS LEAGUE ACTS

Says U. S. Reserves Right to Decide Domestic Policies.

Indianapolis.—American sentiment will "not tolerate" submission of domestic question to the determination of any group of powers," Secretary Hughes declared here in a campaign address.

The secretary said that recently the question has been discussed of the appropriateness of investing a group of powers with the authority to deal with domestic questions, not questions arising under treaties by which parties have limited their rights, but with questions within the competency of a nation as to which it has not limited its rights. The sentiment of this country would not tolerate the submission of such questions which pertain to our own policy, to the determination of any group of powers. It would not tolerate the making of an agreement for such submission. We would not be willing to enter any organization through which a group of powers would be in a position to intervene or attempt to determine our policies for us.

TURKEY THREATENS BRITAIN

Says If English Act On Frontier They Must Bear Blame.

Geneva.—Accusing Great Britain of ignoring League of Nations decisions, Ismet Pasha, Turkish premier and foreign minister, has telegraphed the League that, if British troops commit acts of aggression on the frontier between Turkey and Iraq, England must bear the entire responsibility.

The telegram shows that the Mosul dispute is still far from settlement. At the last meeting of the council, both Great Britain and Turkey agreed to the appointment of an arbitral committee of three which would collect all the information on the Mosul question. Both countries also agreed to accept any decision concerning the Iraq-Turkish frontier which the council might pronounce. The arbitral committee has not yet been appointed. The difficulty arises from the failure of Great Britain and Turkey to agree on what constitutes a status quo frontier.

BRITISH LABOR CABINET FALLS

MacDonald Quits Premiership After Receiving Vote of Censure.

London.—Following the government's defeat in the House of Commons last week, King George assented to and dissolved parliament by proclamation. The Labor Cabinet of Prime Minister MacDonald fell when the Prime Minister announced in the house during a debate of the Conservative motion of censure and the Liberal amendment dealing with the government's withdrawal of addition charges against the editor of the Communist publication that the government would resign if he house passed either the motion or the amendment. The amendment was adopted 384 to 198. A general election has been called for Oct. 29.

MISS COOPER AT CONEY ISLAND

Coney Island gets its name from the initials of "City of New York." I have always thought it would be a park with vast stretches of green lawns, beautiful foliage, etc., on a perfectly round island. But no. It is nothing of the kind. Probably a large part of its popularity lies in the fact that it affords the best swimming within reach of a 5 cent subway ride.

Feeling that it was not a place to go alone for a good time, I invited the neighborhood shoemaker's son (aged 6). The little fellow has just recently come to this country and speaks no English, but we got along beautifully with the language of smiles and gestures.

Arrived at Coney Island, we found it to be much like any one-street town. Serf Avenue, a narrow street which parallels the beach a block distant, is lined for a mile with regular county fair concessions. The buildings are mostly dingy, two story affairs and the crowd on the sidewalks mills aimlessly about.

There are two amusement parks, both fronting on Serf Avenue, and both with about the same attractions you would see anywhere, except that the high things are higher, the low things are lower, and the deep things deeper. In the broad light of day it was not the fairyland I had pictured, but with evening came the mystic charm I had expected—lights, laughter, light breezes, fluttering flags, myriads of reflected lights, and always the smell of hot dogs.

Before dark we wanted to see the Boardwalk, and as I think it over now, that was the most interesting part of Coney. The walk itself is about 100 feet wide and extends along the water's edge for two miles. It was black with people of all kinds and classes—some came in limousines and some came on foot, but all were there to get a breath of pure salt air. As to the crowd, it was the most remarkable crowd I have ever seen—most groups being family affairs from grand parents down to wee babies.

Only a few were brave enough to swim, which was perhaps because of the sharp wind. But I should never care to swim there for anyone on the sands is right in the spotlight for everyone on the walk—just like a box seat to the ocean, so to speak.

At the end of the walk is an exclusive residential park where they have a watchman to keep out those who have no business there. In extreme contrast to this aristocracy, at the other end of the boardwalk is the municipal bathing pavilion, three stories high, where thousands can secure accommodations for fifteen cents a room. They tell me this was put up by the city to bring to time the private bathhouses who charge \$1 to

\$1.50 for a room on Sundays, and 75 cents during the week.

Up to last year when the boardwalk was opened, the only chance to see the water at Coney Island was from the Municipal Pier, where one had to "keep moving." But the concessionaires have had a great time turning their businesses about so that they could front the walk. And the new structures are of fireproof construction, much more modern than on the old main thoroughfare.

A new Childs restaurant is probably the finest piece of architecture with immense plate glass windows that reflect the sky and sea. The exterior walls are of concrete the color of clean, cold mist; and there are decorative panels in colored tile depicting deep sea life. The interior is old English in decoration and furnishings, and it is the first really popular cafeteria I have seen in New York. Somehow they just can't

(Continued on last page)

Remember This

In buying candy for a gift you naturally want to be sure that the contents of the sealed package will be dainty, fresh and altogether pleasing.

Whitman's candies are distributed with the utmost care to prevent disappointments. Every Whitman package contains this guarantee:

"If for any reason this package does not give entire satisfaction, we respectfully urge you to return it to the dealer from whom purchased."

"He is authorized to adjust complaints, either by an exchange or refund. If more convenient, mail an unsatisfactory package direct to us and we shall be glad to adjust any complaint and pay transportation both ways."

We believe in this line of candy, sell it exclusively and carry out the provisions of the above guarantee.

PETER F. JORGENSEN

ANNOUNCEMENT TO THE VOTERS AND TAXPAYERS OF CRAWFORD COUNTY

As Election time is again at hand and you are called on to make your selection of Sheriff, I wish to take this opportunity to inform you that I am a candidate for sheriff, to succeed myself.

For the past two years I have served you as sheriff to the best of my ability and that there has never been a call upon the sheriff that has not been taken care of promptly and in the very best manner. I have always had the interests of the taxpayers in mind in running the office as cheaply as possible and records now in the county clerk's office will show that the Sheriff's office has never been run on an economical basis as in the past two years.

If Elected I promise that the Office will be handled in the same efficient manner.

My campaign is not handled by any social faction or combination to gain control of my office.

I solicit your support on an unbiased platform.

I would like to call on each voter personally but due to the fact that Circuit Court is in session and other duties of the office are taking all of my time I am soliciting your support thru these columns.

CAST YOUR VOTE FOR PETER F. JORGENSEN FOR SHERIFF.

(x) PETER F. JORGENSEN

THANK YOU.

How the Motor Industry Set the Pace for Highway Building

The "horseless carriage" of yesterday is now being produced as the modern automobile at the rate of 4,000,000 a year. The total number of motor vehicles registered in the United States is over 16,000,000.

And automobiles built today are more than ever capable of economically serving both business and recreation needs.

But there is an obstacle standing in the way of their maximum service to owners.

For while the automobile industry made paved highways an economic necessity, the mileage of such roads is today years behind the requirements of modern traffic.

Happily motorists everywhere are boosting for more and wider paved highways.

And extensive experience has taught them that Concrete Highways are one of the best all-around investments they can make—an investment that pays big dividends.

As one of our 16,000,000 motorists you know better than anyone else the need for more and wider Concrete Roads. Start now to help your local officials provide them.

WINDSHIELD FOR REAR AUTO SEAT

Heavy Material for Construction Can Be Avoided by Using Celluloid.

Windshields used on rear seats of automobiles are usually constructed of thick plate glass and require a substantial metal frame to hold them in position. This heavy construction can be avoided by making the shield of celluloid and metal rod as shown in the drawing. It is easy to adjust and there will be no danger of being cut by broken glass, should an accident occur.

Framework of Brass. The framework is made of 1/4-inch brass rod, bent to the shape indicated. Iron rod can also be used provided it is painted to prevent rust. Four pieces of 1-32-inch celluloid are cut to fit in-

Celluloid Windshield for Rear Seat Eliminates Danger of Being Cut by Broken Glass.

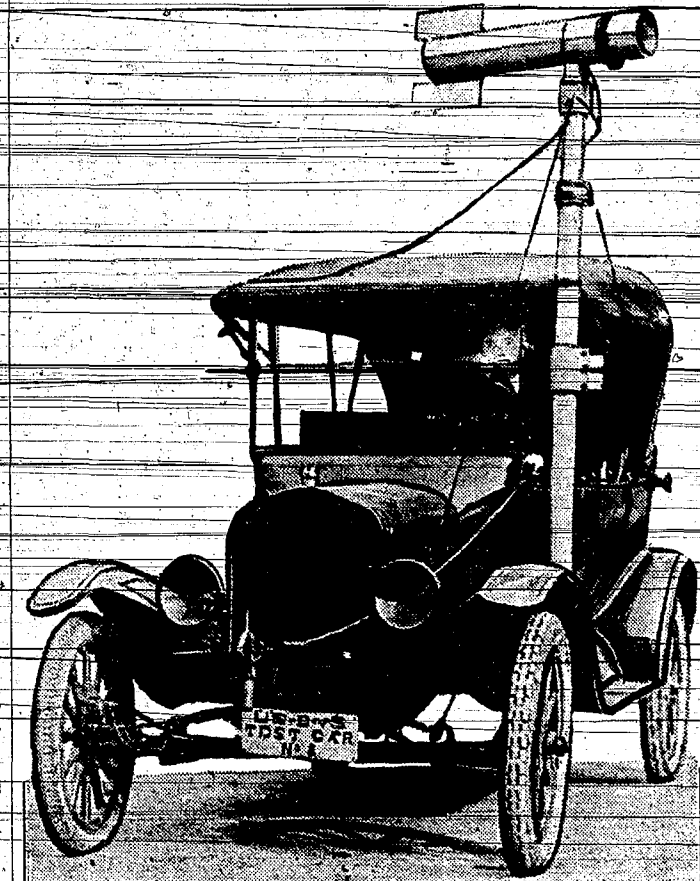

side of the frame. These are sewed or glued to strips of heavy rubberized or leathered fabric, which is folded over the frame and fastened by means of snaps. A good adhesive for gluing celluloid to cloth or leather is made by mixing two parts of shellac, three parts of spirits of camphor and four parts of alcohol. The fittings permanently attached to the inside of the body to hold the windshield, are made of 1/4-inch sheet brass. The frame and the shield itself are readily removable. —G. A. Luers, Washington, D. C., in Popular Mechanics Magazine.

Correct Proportion of Gasoline Mixture

The correct proportion of gasoline for a perfect fuel mixture is .07 of a pound of gas to a pound of dry air. It is possible to operate on a mixture containing as much as .12 of a pound of gas to the pound of dry air, which is nearly twice as much gasoline as is needed.

This wide range of mixture strength constitutes the greatest factor in wastage of gasoline. The majority of our owners run more nearly at the maximum strength than at the minimum, which would give them better results. They are using nearly twice as much fuel as there is any need for. Think it over.

"BRUCE'S CHARIOT" KEEPS TAB ON CAR

C. S. Bruce of the United States bureau of standards operates the government-owned driver, which consists of ninety pieces of apparatus which tell the complete story for the first time of what happens to the car and what the car does during a tour. This car has been dubbed "Bruce's chariot." The apparatus constructed tells such things as the number of explosions in each cylinder, as well as the number of revolutions of each wheel, the weight of the air used by the engine, how much work the piston does in sucking in air and gas, and many other things. The stove-pipe apparatus is used to measure wind velocity and to obtain wind protection. The car is being used in tests looking to improving motor efficiency and performance.

Automobile Notes

Glaring headlights on wet nights are especially dangerous.

Mexico City bans horse-drawn vehicles from downtown streets.

Irregular firing is often caused by moisture gathering on exposed part of spark plug.

Loud Speaking Signs With Varied Appeals

Motorists who can read English will have little excuse in being caught in evading speed laws. "Towards throughout the country are very active in putting up warning signs, with the aim of better traffic regulations and of improved accident record. Here are several signs with varied appeal, as reported by one tourist:

"This is a good road. It will cost you money to burn it up."
"Slow down. Look before you weep."
"Don't covet your neighbor's side of the road."
"Look out. You may meet a fool around the corner."
"Stop—Look—Live."
"Don't speed. It is 'Good morning, Judge.'"

High Speed Dries Tires and Makes Blowout Easy

One of the most expert tire men in the country recently called the attention of motorcar owners to the manner in which tire wear increases with speed. The faster a tire travels, the more heat it generates internally. Normal speed does not increase this internal heat to a dangerous degree, but excess speed will not only raise the heat above the danger point, but may actually cause further vulcanization to take place. This heat not only dries out the friction gum between the piles of fabric but the very fabric itself, lowering the elasticity of the tire, decreasing its resiliency and weakening the tire so that it will blow out early.

Way to Harden Iron

At times it is desirable to harden small cast iron parts. Here's how: Take a half pint of sulphuric acid, two quarts of common salt, one-half pound of saltpeter, two pounds of alum, a quarter pound of prussiate of potash, quarter pound of cyanide of potash and dissolve in ten gallons of soft water. Heat the iron to a cherry red and dip in the solution. If the parts are wanted hard, repeated heating and dipping will be necessary.

Cleaning Commutator

When the generator commutator becomes dirty it may be cleaned by wrapping a piece of sandpaper around the end of a stick and holding it in contact with the copper surface, the engine being run meanwhile. Fine sandpaper only should be used. Emery cloth should never be employed. —Chicago Tribune.

Clean Generator Brushes

Examine generator brushes about twice a season. The main troubles brushes are subject to are sticking in holders, holders overheating, brushes fitted poorly to commutator, weak holder springs or brushes grounded by dirt, oil or carbon particles.

Care of Steering Wheel

A slightly tapering bar with a number of steel washers under the head, so that, by removing one or more, the bolt may be tightened in its bearings, makes an admirable steering gear connection. Additionally, too much attention cannot be given to obtaining dependable steering gears.

THE KITCHEN CABINET

(© 1914, Western Newspaper Union.)

WEEKLY MENU SUGGESTIONS

The planning of meals is not always easy. The finding of something all of the family will enjoy and still keep within the limit allowed for food is the daily problem of the housewife.

SUNDAY—Breakfast: Cherries, muffins, bacon. Dinner: Crown roast of lamb with peas. Supper: Whipped cream, cake, blueberries.
MONDAY—Breakfast: Graham gems, ham. Dinner: Broiled salmon, steak, baked potatoes. Supper: Tarts, loaf tea.

TUESDAY—Breakfast: Toast, eggs, coffee. Dinner: Baked hash, halves of cantaloupe, filled with vanilla ice cream. Supper: Rolls, summer salad of chicken.

WEDNESDAY—Breakfast: Iced watermelon, oatmeal, top milk. Dinner: Veal steak, fricassée of carrots. Supper: Potato salad.

THURSDAY—Breakfast: Prepared breakfast food, milk, corn muffins, coffee. Dinner: Beef stew with vegetables. Supper: Creamed celery, baked.

FRIDAY—Breakfast: Poached eggs on toast, coffee. Dinner: Fried fresh fish, tartar sauce. Supper: Cottage cheese salad.

SATURDAY—Breakfast: Hash, eggs, corn muffins. Dinner: Chuck of beef in casserole. Supper: Rolls, berries, iced lemonade.

Summer Salad of Chicken

Cut good sized cucumbers into cups and fill with equal parts of chicken and diced cucumbers, season with French dressing to which a little onion juice has been added. Top with a spoonful of mayonnaise and garnish with radishes cut in points.

Fricassée of Carrots

Steam until tender three or four large carrots. Grate two medium sized onions and brown in one-half cupful of butter, stirring until evenly colored. Cut the carrots into slices and cook them until tender. Drain the whole well and toss with a few drops of oil and a spoonful of salt with a little pepper. Add a cupful of rich stock, let come to a boil and serve garnished with minced parsley.

Chuck of Beef

In an iron kettle add the chuck roast, two tablespoonsful of butter, brown on all sides, add salt and one sliced onion, brown. Place in a casserole with a cupful of stock and such vegetables as one likes. Bake for several hours tightly covered.

Just as of old the world rolls on and on.

The day dies into night—night into dawn.
Dawn into dusk—through centuries untold—
Just as of old. —Haley

A FEW CREOLE DISHES

Many of the tasty southern dishes though not expensive in themselves, take much time in preparation; however, when prepared, they are well worth the trouble.

La Daube. La daube is simply a Southern pot roast, yet not as simple as our pot roasts in the North. To make this dish one may use beef or veal, or if for a very choice occasion, turkey, goose or chicken. For a small dinner five pounds of round steak will be sufficient. Rump may be used equally well, with one-fourth pound of salt pork sliced very thin, two large onions, three carrots, a turnip, a clove of garlic, parsley cut fine, a bay leaf and a pinch of thyme. Chop together the bay leaf and the parsley very fine. Rub the pork slices with finely minced herbs and spices, then flour the meat all over. Cut the other onion into slices and brown in fat in the bottom of an iron kettle. Lay the meat in shape over the onion and cover closely. Cook, turning the meat often until it is well browned on all sides. Lay the vegetables, peeled and sliced about the meat, brown them well, then cover with boiling water, cover closely and simmer for three hours longer. Serve hot or cold.

Poulet-Creole. Cut up a fine tender chicken as for frying, season well by rubbing with salt and pepper, then melt two tablespoonsful of butter in a frying pan and brown the chicken slowly in it. Now add one large onion finely chopped and cook until it is well browned, then add one-tablespoonful of flour and toss until all are well browned. Add two large peeled tomatoes cut into small pieces, a sprig of parsley chopped, a pinch of thyme, half a bay leaf and a clove of garlic minced to a pulp, cover and simmer for an hour. At the end of the time add a cupful of boiling water and three green peppers, cut in strips. Cover and simmer again for three quarters of an hour or until the chicken is very tender. Add seasoning of salt and pepper as needed. Serve with hot, nicely boiled rice.

Pompano With Lemon Butter. Split the fish, if large, down the back, clean and season well by rubbing in plenty of salt and pepper. Brush the hot broiler with olive oil, lay on the fish and broil on both sides until a rich brown. Place on a hot dish, spread with soft butter and squeeze lemon juice over it. Garnish with parsley and sliced lemon. Pompano is a favorite fish in the warm climates.

True Courage

The truest courage is always mixed with circumspection; this being the quality which distinguishes the courage of the wise from the hardness of the rash and foolish. —Jones, of Nayland.

Odd Writing Material

Bladstones of sheep were used by the Arabs as material on which to write when paper was unknown and many famous sayings have been found on these remarkable "paper-substitutes."

One trial of Farm House Cocoa—and you'll want to use it always. Few other brands can compare with it for cooking or as a beverage. Your grocer can supply you. Test Farm House today.

MONARCH COCOA 35¢

Note: If you prefer Dutch Process Cocoa, ask for Monarch. This choice cocoa is a true quality product. Use it as a beverage and for all cooking.

Winning fame for hospitality

400 Pleasant Rooms

Hotel Fort Shelby

Lafayette Boulevard at First Street

DETROIT

Globe to Detroit's Busiest Corner

In the front rank of Detroit's finest hotels, the Fort Shelby offers you uncommon advantages in location, environment, equipment and service. Fort Shelby's hospitality wins the praise and preference of business men, tourists and family parties.

Fort Shelby service includes many extra courtesies, such as reservation of theatre tickets and other errands in advance of your arrival.

Running Ice Water in Every Room
Day and Night Valet Service

THE SERVITOR—A compartment built in the guest-room door, through which, on telephoned request, merchandise, clothing to be pressed, etc., can be delivered to and from your room without inconvenience, interruption or intrusion of employees; also it protects from excessive tipping.

Automobile parties appreciate the unexcelled service of the Fort Shelby Garage. Advance garage reservations made for our guests.

The Fort Shelby Cafe is famed as "Detroit's finest restaurant." Moderate prices in cafe and coffee shop.

Convenient to rail and water terminals. Michigan Central Depot cars stop close by.

Rates per day: \$2 and up • Double \$3.50 and up

Entered as second-class matter at the Postoffice, Grayling, Mich., under the act of Congress of March 3, 1919.

THURSDAY, OCTOBER 16, 1924.

A great many of our citizens are kicking about the lack of electric power service. The low water in the pond has made it necessary for the Company to eliminate the day-time service so that there would be water enough for the night service. All over Northern Michigan the streams and lakes are low in water. There is no remedy for this condition of the water supply sources except the most rigid economy in its use. Many power companies have provided against shut down on account of low water by installing an auxiliary steam plant to help out in such emergency. There has been some talk on the part of the Grayling Electric company of putting a generator

in connection with Grayling Dowel & Tie Plug company plant where there is plenty of boiler capacity for carrying the load. This looks like a most feasible plan. At one time there was talk of the Cheboygan Power company extending their lines to Grayling and buying out the local plant. Manager Marius Hanson said, however, that when they found out that the local power plant had no extra power, more than was needed locally, they abandoned the idea. Two or three years ago the local plant had all the load it could carry but the demand for lights was so pressing that many more homes and other places were added until it is staggering beneath its load, and more and more water is required as the load increases. It puts Grayling into a bad hole. We do sincerely hope the Electric company will find a remedy for this trouble before the winter time so that we won't have to endure this present inconvenience until spring. While we have heard some kicks on the cost of electricity here, these objections have never come from the power users. We doubt if there are any power users that will object to pay the price the Company would feel it is necessary to charge. The future for this line of business in Grayling looks as bright as any we can think of and we are sure there would be no financial risk on the part of the company if they will put their power plant in order to take care of the local needs. The field is large, the demand is great and there is plenty of finance behind the organization to put the plan over.

T. E. DOUGLAS WINS INJUNCTION CASE

NO CRIMINAL CASES ARE TRIED. JUDGE DISCHARGES JURY.

Judge Guy E. Smith made short work of the criminal calendar at the term of court that convened Tuesday afternoon, and sent the jury home without trying a case.

The civil calendar was not so easily disposed of and kept the court busy up to this Thursday afternoon.

Criminal Cases.

The criminal cases on the docket were disposed of in the following manner:

The cases of Bert Dameth, Conrad with violation of the prohibition law, Sorenson and James Pratt, charged were continued. Also the case against Chester Burke, for rape was continued. These were carried over on petition of counsel for the defense.

Silas Barney, Edward Bowen and Henry Bowen, charged with larceny, plead guilty. Barney was sentenced to from 2 years to 5 years in Ionia prison, with recommendation of two. Edward and Henry Bowen were sentenced to from six months to five years at the same place.

Denny Lovely plead guilty of violation of the prohibition law and was let off on probation for one year with the stipulation that he pay \$35 costs within that time.

Civil Cases.

The case of Dorothy and Elmer Johnson was dismissed.

The divorce case of Henry Uhlen-dorf vs. Lizzie Uhlen-dorf was adjourned to next term.

The injunction case of Thomas E. Douglas vs. Elsworth Jordan, et al. to refrain the respondents from constructing a bridge across the North Branch of the Ausable river from an island at the mouth of that stream and in the Main Stream was won by the plaintiff. This case was called Wednesday morning and it was not until the middle of Thursday forenoon that the last witness was heard, and noon before the arguments of the attorneys were closed. Early in the Thursday afternoon session Judge Smith rendered a decision sustaining the injunction. The attorneys in the case for the Plaintiff were Geo. L. Alexander of this city and E. M. Harris of West Branch, and for the respondents George W. Cook of Flint. The latter gave verbal notice that the case would be appealed to the supreme court.

Cook of Flint vs. Elsworth Jordan, et al. to refrain the respondents from constructing a bridge across the North Branch of the Ausable river from an island at the mouth of that stream and in the Main Stream was won by the plaintiff. This case was called Wednesday morning and it was not until the middle of Thursday forenoon that the last witness was heard, and noon before the arguments of the attorneys were closed. Early in the Thursday afternoon session Judge Smith rendered a decision sustaining the injunction. The attorneys in the case for the Plaintiff were Geo. L. Alexander of this city and E. M. Harris of West Branch, and for the respondents George W. Cook of Flint. The latter gave verbal notice that the case would be appealed to the supreme court.

FREDERIC SCHOOL NOTES.

Need a pencil? Help the Freshmen class fund. Buy the latest model—1923.

English II class is reading and enjoying Scott's "Lady of the Lake."

What's become of the Juniors newspapers?

Eather and Leota gained some practical experience last week. They were substitute teachers in "Miss Patterson's room."

How many enjoyed the hike Tuesday night?—Everyone!

Mr. C. VanPatton a school mate of Supt. Payne visited in High school one day last week.

Miss Munroe had just completed a story about Columbus when Floyd Ensign looked up and asked, "Is that a real true story, Miss Munroe?"

Four new scholars enrolled Tuesday. Two in the Intermediate room and two in the primary room. Enrollments now; Intermediate room 44, Primary room 39.

Buy a Pencil!

Some magazines have been ordered for the reading table.

Have you heard this one:

He didn't listen, look nor stop.

Though crossing bells were ringing.

He tried to cross the tracks on high.

He heard the angels singing.

Sayings of the Great:

Plutarch—I am sorry that I have no more lives to give for my country.

Samson—I'm strong for you kid.

Jonah—You can't keep a good man down.

Cleopatra—You're an easy Mark Anthony.

Helen of Troy—So this is Paris.

Solomon—I love the ladies.

Noah—It floats.

Columbus—I don't know where I'm going but I'm on my way.

Nero—Keep the Home Fires Burning.

Queen Elizabeth to Sir Walter Raleigh—Keep your shirt on.

The Real Kind.

Any girl can be gay in a couple.

In a taxi they all can be jolly.

But the girl worth while is the one who can smile.

When you're taking her home on the trolley.

Novellette in Three Chapters.

The three R's:

At 25, Romance; at 45, Rent; at 65, Rheumatism.

That Old Gang of Mine.

Teacher (to boys) "Now all who desire to go to heaven when they die stand up."

Francis remained seated.

Teacher: "Why Francis! Don't you want to go there too?"

Francis: "Yes ma'am, but not if that bunch is going."

It Was Dark Then.

Late Mother (whose?) "What do you mean young man, by kissing my daughter last night?"

The guilty one (who?) "That's what I've been trying to find out ever since I saw her this morning."

Quite Provoking: At our new building while removing a wheelbarrow load of bricks from a hoist one of the bricks fell and hit a workman working at the bottom of the hoist. "What's the matter up there?" he yelled. "That brick dropped on my head and made me bite my tongue; you should be more careful."

The Best Firm.

A pretty good firm is "Watch and Wait."

And another is "Wait, Early &

Miss Margaret Hemmingson is spending the week visiting relatives in Detroit.

A son was born to Mr. and Mrs. Harold Rasmussen at Mercy hospital this morning.

Einar Rasmussen motored up from Monroe Saturday to spend Sunday with his family.

Remember—lunch served Friday p. m. from 3 to 7 at the Electric light company office.

Several from Grayling attended the dance at the town hall at South Branch Saturday night.

Mr. and Mrs. Harvey Trudo, Henry Trudo and Miss Bessie Brown were in Saginaw over the week end. The former drove back a new auto.

Drop in and look over our stationery! Large assortment at reasonable prices. Eaton, Crane and Pike lines our specialty.

Central Drug Store.

Floyd Mathias and sister Mrs. Myrtle Levegnino and two children of Detroit were called to Grayling Saturday owing to the illness of their mother Mrs. Arthur Wendt, who is now much improved.

Mrs. C. H. Hathaway returned home Friday after a ten days visit with her brother in Chicago, also relatives and friends of Northern Indiana. Mr. Hathaway, who accompanied her, intends to remain for some time.

Miss Florence Cook of Traverse City visited Mr. and Mrs. Ray Preston a few days, enroute to her home from West Branch, where she was visiting. Mr. and Mrs. Preston and family accompanied her to Traverse City Sunday.

Now is the time to register for the fall election if you are not already registered. You may either register with Township Clerk Alfred Hanson, or Deputy Registration Clerk Mrs. A. McKone. The last date for registration is October 25th.

The first of the Thursday noon-day luncheons of the Board of Trade since last spring was held this Thursday noon. It was well attended. Principal among the speakers were Judge Guy E. Smith and Attorney George W. Cook of Flint.

Ray Barber and family, Mr. and Mrs. Ross Barber, George Barber and Miss Evelyn Rood were called to Rowley Friday by the death of the gentleman's mother, Mrs. Clarence Barber, who died suddenly at her home that morning. The funeral was held Sunday afternoon.

Mrs. John Walker and daughter, Miss Hazel visited at the home of Arnold Burrows, Sunday. On their return to their home in Cheboygan they were accompanied by Miss Anna Fischer of the Mercy Hospital training force, who went to act as bridesmaid in the wedding of a girl friend.

The greatest shoe values on Earth are Edmonds Foot Fitters at \$8.50, \$7.50 and \$9.00 at Olson's, for men only. All colors and styles.

Mr. and Mrs. R. H. Gillett entertained with a fine bridge dinner Saturday evening. There were 24 present and every one enjoyed the royal hospitality afforded them. The rooms were attractive with gladiolus, asters and autumn leaves. The high scores were held by Mrs. Oscar Schumann and Robert Reagan.

The Board of supervisors is in annual session this week and will probably continue into next week. The principal business of this session will be to audit the county affairs; draft a budget for county administration; and apportion the township amounts. All members are in attendance.

A complete set of table decorations and games for a Halloween party of eight. Package contains lamp shades, invitations, fortune place cards, napkins, or candy cups and seven decorations. Altogether 80 pieces of table decorations and a fortune puzzle, this week 25 cents per package.

Sorenson Bros.

Meredith Cameron of Detroit visited at his home here over Sunday. On his return to Detroit Monday he was accompanied by his sister Miss Leola, and later Mrs. Cameron will join her family in that city to take up their residence. Clare Cameron, who is teaching the Frank Love school will remain in Grayling for the present.

John Balcer, who at one time served as stenographer in the local trainmaster's office of the M. C. R. R. Co. in Grayling, passed away at his home in Bay City last Thursday night, following a long illness from tuberculosis, from which he had been suffering for over two years. The young man made many warm friends during his stay in this city all of whom will be grieved to learn of his untimely demise.

Edmund N. Lozon, formerly of this city but now of Cheboygan announced his marriage to Miss Mae Turner of Gaylord, that took place on July 24, 1924, and which has been kept a secret by the young people. The groom is the son of Archie Lozon of Frederic and formerly in partnership with Frank Goblet operated the Burton Hotel and restaurant. At present he is employed in Cheboygan for the Crowell Publishing company.

Mrs. Carl Peterson entertained with a charming tea at her home Wednesday afternoon. Bouquets of asters distributed through the house carried out a color scheme of pink and white. A silver basket of pink tea roses rested with a huge maline bow graced the center of the dining table. Mrs. Peterson was assisted by Mrs. Welsh and Mrs. Jarmin who poured; and by Mrs. Lewis and Mrs. Hughes. The guests assured the hostess that it was a most enjoyable affair.

The ladies of the Danish Lutheran church will give a social and a bazaar at Danebod hall on Thursday, October 23rd. Afternoon and evening. Everyone cordially invited.

Take your prescriptions to Central Drug Store.

Life insurance is too cheap to be without. Insure with the Palmer Fire Insurance Agency, Avalanche Building.

There will be a chicken supper at the Frederic opera house for the benefit of the M. P. church, Saturday evening, Oct. 18. Everybody welcome.

Mrs. Bert Ashenfelter returned the latter part of the week, from a several weeks visit with her mother Mrs. Mary Leese and other relatives in Detroit.

Miss Mary Shreve is at home with her mother at Lovells. Mr. and Mrs. John W. Payne of Frederic, spend their week ends at Mrs. Payne's mother's, Mrs. Orlo Shreve.

Mr. and Mrs. Jerry Sherman and James Bugby and family spent last Sunday at the H. A. McMillan farm in Maple Forest. The McMillans entertained with a chicken dinner.

Miss Maude Taylor expects to leave Friday night to spend a week in Detroit, expecting also to visit Miss Maude Sullivan who is attending State Normal college at Ypsilanti.

Gilbert D. Vallad, superintendent of the county infirmary, entertained the county supervisors and officials this noon with a chicken dinner. The guests report a very enjoyable affair and fine dinner.

Carl England and family are enjoying a new 1925 model Studebaker touring car, purchased from the local dealer, Harry Simpson. Also Herbert J. Smith and wife are the possessors of a new Studebaker of the same type.

Clinics for pre-school children will be held in Crawford county November 5, 6, 7, 10 and 11. It is urged that parents take advantage of this opportunity to get the benefit of our Sherrard-Townsend fund by attending these clinics. Watch for further announcements on same.

Mrs. H. H. Merriman and son Dr. Kenneth Merriman of Detroit visited friends in Grayling the latter part of the week. The Merriman family resided in Grayling ten years ago, the Grayling schools. The youngest son, Amherst is also a physician and practices in Colorado.

Miss Jennie Ingley has closed her summer cottage at Lake Michigan (Rustle Inn) for the season, and will leave today for Detroit to spend a few days, and Sunday night will leave via the Santa Fe route for Huntington Park, Calif. to spend the winter visiting her brother William Ingley. Enroute she will visit the Grand Canyon.

Mr. and Mrs. Frederick H. Freeman and two daughters, Betty Jane and Virginia Ruth of St. Thomas, are at Lovells to visit Mrs. Freeman's mother, Mrs. Orlo Shreve, of the Miller club. Mr. Miller who is a federal inspector in the Michigan Central shops at St. Thomas, was obliged to undergo an operation three weeks ago.

Mrs. Shreve is pleased to have her children with her.

The Powers Trio, that comes to Grayling Friday night to give entertainment at the High school auditorium, under the auspices of the Girls' Glee club, come from Mt. Pleasant Normal school. They will be accompanied by Mr. and Mrs. Willard Campbell. The latter was formerly Miss Agnes Hanson, a Grayling girl, and now a teacher of violin at the Central Normal.

Mrs. James Kubeck and little three year old daughter Julane are ill at their home with scarlet fever. Mr. Kubeck, who had gone to Grand Rapids where he had employment, was called home and with Mrs. Kubeck's sister of Edward and a trained nurse in Bay City are caring for the patients. The little girl was very ill, but is showing slight improvement at present.

At the annual business meeting of the members of the local Danish Lutheran church, John B. Rosenstand was elected secretary of the church board to succeed John H. Cook. The other members of the church board are as follows: President, James W. Sorenson; vice president and secretary, J. B. Rosenstand; treasurer, Hemming Peterson; Mrs. R. Hanson is the fourth member of the board and Mrs. J. K. Hanson the fifth. At this meeting the quota to the Danish Lutheran church societies of America was announced, which is \$205, \$105 of which was subscribed at this meeting.

Get your shot gun shell and other ammunition at Olaf Sorenson & Sons. All loads of shells for 12 and 10 gauge shot guns.

The Avalanches, in common with other firms in the city, has been suffering for the want of electric power, and it has been necessary to greatly cut down the type setting. Fortunately we had several articles set up in advance, before the day power was cut off, however everything has had to be boiled down and only necessary matter set in type. We hope this condition will not prevail for any length of time. We are taking advantage of the night job but working day and night is a little more than we want to ask our forces to do. Our hold back your contributions for if we can't get them set for that edition they will appear in a later one.

Bleached Sheet 22c at Frank's. Not cheap shoes, but good shoes cheap at Olson's.

LADIES AID FAIR.

We are one week closer to the Big Fair to be given at Danebod hall by the Ladies Aid society of the Michigan Memorial church, on Wednesday, November 12th, under direction of the president Mrs. Bauman. This is an annual event and one which is looked forward to each year by those who have ever been fortunate enough to attend. Don't miss it, as there will be a big selection to choose from in the various booths. The chairman are as follows:

General chairman, Mrs. Harry Simpson.
Home canning booth, Mrs. Oscar Hanson.
Fancy work booth, Mrs. Carl Peterson.
Baby booth, Mrs. Schoonover.
Apron booth, Mrs. Schumann.
Brick booth, Mrs. Lewis.
Candy booth, Mrs. Weir.
Fish pond, Mrs. Ernest Larsen.
Flower booth, Mrs. L. J. Kraus.
Booth, Queen Esther girls.
Red Cross booth, Mrs. Squires.
Last but not least important is the self-serve supper, which will be given in detail later. Mrs. Edmund is chairman of the supper committee.

Michigan Happenings

A hearing on the contention of Upper Peninsula copper interests that intra-state rates are excessive and unjust has been held before the State Public Utilities Commission. According to the petition for an investigation and revision of tariffs on all the Michigan railroads carrying copper, the Upper Peninsula industry is severely handicapped in attempting to meet outside competition in the markets of its own state. It is claimed that copper can be shipped from Ohio to Detroit cheaper than it can be transported from copper producing points in the Upper Peninsula.

Five suits totaling \$125,000 and based on the four deaths which resulted when a section of the chimney atop the Charlevoix hotel at Detroit, tipped, crumbled and fell 10 floors to the street July 31, killing four people, were filed by Ernest L. Morey, Sr., as administrator of the estates of those who were killed. The Moreys and Lehighs were in an automobile on West Elizabeth street on their way to Belle Isle when the heavy steel and iron chimney pitched down, smashing the car to bits and killing all but one of the occupants.

The increase in interstate freight rates on beet sugar has been postponed until Nov. 3, the Interstate Commerce Commission has advised the Michigan Public Utilities Commission. An order to increase the Michigan rate was issued by the federal commission after an investigation. Protests on the part of Michigan manufacturers resulted in the postponement which will permit them to handle this year's crop at the lower rate.

Orville Atkinson was instantly killed, the target of a stream of bullets from the upper windows of the Highlands Inn at Oakwood Park. Spaulding Park was arrested after the slaying and is said to have confessed. He was traced through a marsh about a mile from the inn and arrested with the aid of the shotgun he is alleged to have used in the killing.

Dr. Preston M. Hickey, professor of Roentgenology in the medical school of the University of Michigan, has been named executive head of the department of internal medicine by action of the faculty of the school. Dr. Hickey will serve in the new capacity in the absence of Dr. Louis M. Warfield, who has been granted a leave of absence until June 30, 1935.

To lighten the burden on the Southern Michigan Telephone Co., which is in the hands of a receiver, the state administrative board has granted it permission to pay about \$72,000 in back taxes in installments. The levy for 1935, amounting to about \$18,000 will be paid at once and the rest will be spread out in payments of \$1,000 a month.

Surveys to establish the route of the pipe line from the Delportor woods to the Clare district to bring Saginaw's new water supply to the city will be started soon, it has been announced. The distance from the woods to the test plant in Clare is 42 miles but it is probable that the collecting reservoir will be built much nearer Saginaw.

An anonymous donor who already has made three \$10,000 gifts toward the erection of the boys' dormitory at Calvin college at Grand Rapids, has presented another similar donation. The building is just being completed at a cost of \$150,000. This donor already has presented several thousand dollars in addition toward dormitory expense.

Henry Hawkins, 52 years old, of Saginaw, died of injuries suffered when his automobile skidded after blowing out a tire and threw him to the pavement. He was the father of Harry Hawkins, a student at the University of Michigan and candidate for the foot ball team.

Mace Hanson, 15-year-old Lansing high school boy, died of injuries suffered when he was shot by a friend, Roland A. Foote, as the two boys were hunting about four miles north of the city. Foote, in a statement to the police, said the gun went off as he was handing it to Hanson.

Michigan graduates will gather at noon, October 28, at the Hotel Statler, Detroit, for the first of a series of seven alumni meetings to be held throughout the state this fall. Hawley Tapping, alumni secretary, has announced.

Ray McDonald, 7 years old, of Harbor Springs, was struck by an automobile driven by Fred Gasco and killed. Gasco is under arrest. It is charged that he did not stop his automobile after striking the child.

A recent canvass of Albion's local chamber of commerce, bore fruit when 15 alien residents went to Marshall in a body and were examined in circuit court for their first naturalization papers. Six nationalities were represented in the 15.

Miss Hazel Doniky, 25, of Holland, while riding horseback, was attacked by thieves, dragged from the saddle and robbed of a \$2,000 diamond ring and other valuables. She was bound hand and foot and left by the roadside.

The inheritance tax is \$687,312.20 on the estate of Hugo Scherer, real estate broker of Detroit, who died Nov. 6, leaving upwards of \$10,000, according to the computation of Probate Court.

Automobile license receipts for the quarter ended Oct. 1 were \$780,245, according to a report by the Department of State. Of this amount \$365,121 will be apportioned back to the counties in following amounts: Calhoun, \$7,408; Genesee, \$14,994; Houghton, \$3,084; Ionia, \$2,908; Jackson, \$6,567; Kalamazoo, \$7,038; Kent, \$17,595; Lenawee, \$4,179; Macomb, \$6,004; Muskegon, \$6,959; Oakland, \$14,732; Saginaw, \$9,974; St. Clair, \$5,515; Shiawassee, \$3,776; Tuscola, \$3,172; Washtenaw, \$6,967; Wayne, \$131,931.

The official state canvass, shows that 792,131 Republican votes were cast for governor at the primaries Sept. 9. The 1924 vote was the largest ever polled in Michigan other than 1,058,533. In the Republican primaries for governor in 1920, the total vote was but 387,548. The total primary vote for both the Democratic and Republican candidates for governor two years ago was 424,135.

The movement of freight through the locks at Sault Ste. Marie during September aggregated 9,661,210 short tons, according to the monthly report of the United States engineers' office. The movement of wheat totaled 19,008,265 bushels; grain other than wheat, 28,217,107 bushels; flour, 1,352,870 barrels and iron ore 8,031,533 short tons. The movement of coal upbound aggregated 1,776,661 short tons of bituminous and 181,770 short tons of anthracite. The total movement in September a year ago was 12,776,084 short tons.

Under a ruling made by the Secretary of State and the Attorney General, the presidential electors named by the Workers' party, which has William Z. Foster and Ben Gitlow as its candidates for president and vice president, will not appear on the November ballot. The state held that the party has not chosen its delegates nor named its electors in accordance with the election laws.

The Pennsylvania Railroad will appeal from a verdict of a jury in circuit court at Cadillac, which awarded a judgment against the railroad for \$15,000 in favor of the Falmouth Co-operative Marketing Association on the basis of an agreement that the carrier failed to provide care for the transportation of the 1922 potato crop, and as a consequence the tubers rotted in storage.

Driving his truck across the Michigan Central tracks east of Augusta, Frank Perry, 40 years old, of Augusta, was struck and instantly killed by a westbound train. Witnesses of the accident report that Perry drove past them, though the crossing bell was ringing, onto the tracks just as the train reached the crossing.

The Detroit Automobile Sales Managers' association has been incorporated at Lansing to promote knowledge of advertising, selling and service in the motor trade. The officers are Thomas Walker, president; L. W. Foster, vice president; Charles W. McCannan, secretary, and John Neumann, treasurer.

A verdict for \$6,261 damages, the highest ever awarded a victim of an automobile accident in Kalamazoo county, was won by William Gleason, against Joseph Lowe, while driving an automobile struck and demolished Gleason's wagon in which he was riding and caused permanent injuries.

The "Square Deal League," the avowed purpose of which is to fight the proposed income tax amendment, advocated by the Michigan State Grange and other farm organizations, has been organized at Grand Rapids.

Melvin, 2-year-old son of Mr. and Mrs. Leon Leach of Ovid, died after he had eaten several tablets which his mother had in the house for medicine. The child mistook them for candy.

Charles Livingstone, of Detroit, has been elected president of Mimes, the University of Michigan dramatic organization which annually presents the Michigan Union opera.

Virginia, 3, daughter of Mr. and Mrs. Elmo Lockwood, of Pontiac is dead from the result of burns. The baby pulled a kettle of boiling cabbage on herself.

Kenneth, 4-year-old son of Mr. and Mrs. Paul Konick, of Mason township, was killed when struck by an automobile driven by August Webber, of Battle Creek.

Edward Miller of Jackson, died of injuries suffered when his motorcycle collided with a truck driven by A. Clark, one mile east of Jackson.

The last stretch of paved way between Grand Rapids and Muskegon has been completed and opened to the public. The new road stretched 46 miles from Grand Rapids, through Sparta, Kent City and Casnovia into Muskegon. It has been under construction since 1921.

George Berry, 40 years old, of St. Charles, died in a Saginaw hospital of wounds suffered when the shotgun with which he was hunting ducks was accidentally discharged.

Attorney Harold H. Smedley has obtained from John Baird, director of conservation, a statement that po permits will be issued to spear fish in the Pere Marquette, Little Manistee, White or Pine rivers this year.

Gerrit Vanderwood, 35, and his son, John, 8, were instantly killed at the Division road crossing, Grand Rapids, when the truck in which they were returning to their home at Dutchess, was struck by an inbound Pennsylvania passenger train.

1—William Allen White, noted writer, running for governor of Kansas as an independent. 2—Start of \$2,000,000 fire at the tank farms of the Associated Standard Oil company at Monterey, Cal., in which two men were killed and 40 injured. 3—Soviet soldiers mining a river in Georgia in the war with the revolutionists.

2—Start of \$2,000,000 fire at the tank farms of the Associated Standard Oil company at Monterey, Cal., in which two men were killed and 40 injured. 3—Soviet soldiers mining a river in Georgia in the war with the revolutionists.

NEWS REVIEW OF CURRENT EVENTS

British Labor Government Defeated—Chang Likely to Win in China.

By EDWARD W. PICKARD

RAMISAY MACDONALD and his Labor cabinet went down to defeat in the British house of commons Wednesday night and the prime minister decided to have parliament dissolved and appeal to the country immediately in a general election. The crisis, which had been expected, came not over the Russian treaties but over the government's recent decision to drop the prosecution of John R. Campbell, editor of a Communist newspaper, who was charged with inciting sedition. MacDonald and Colonial Minister Thomas defended the action of Attorney General Sir Patrick Hastings in that case when it was attacked in the house. The Conservatives moved a vote of censure and the Liberals, who had been supporting the Labor government, proposed an amendment calling for its inquiry. The prime minister declared the government would not accept the amendment, which he characterized as "a man and a crooked party maneuver." However, it was carried by the decisive vote of 304 to 188, the combined strength of the Conservatives and the Liberals.

The contention of the opposition is that in the Campbell case the government brought the administration of the law into contempt by allowing party politics to govern. The attorney general told the commons that the Campbell article in question had been brought to his attention by the director of public prosecutions. He decided that it was prima facie seditious and he directed prosecution. Some time later a member of the Labor party told him that he had got the wrong man, Campbell having an excellent army record, being seriously wounded and decorated for bravery. He investigated and decided that on the grounds of public policy the prosecution was unjust and he dropped it.

King George, hastened from Balmoral castle, Scotland, to London because of the crisis and Mr. MacDonald saw him on Thursday. It was understood the king, the big business leaders and many political chiefs were opposed to an election now, but the king yielded to MacDonald's demand. Parliament was prorogued Thursday night, and October 20 was decided upon as the day for the general election. The Labor party really hopes to obtain a majority in the new parliament and thinks this a good time for the fight.

Once more the British Labor party has refused to permit the Communist party to affiliate with it. This action was taken at the Labor national conference in London, the vote being overwhelmingly against the Communists. It was declared the two parties have nothing in common, Communism being a product of capitalism and war betrayal.

In the words of Mr. MacDonald, "The French government has approved of Germany's admission to the League of Nations, conceding that she should be recognized as a great power and granted a permanent seat in the council. But it is insisted that Germany must assume all responsibilities shared by the other powers, which means she must sign the security and arbitration protocol without reservations and agree to the execution of all treaties."

Following up the presentation of a balanced budget, Premier Herriot's cabinet has announced that it will not be possible to include further expenses of the devastated regions in the budget. Hereafter the war-ravaged parts of France must depend on public loans for their reconstruction work.

THERE has just been filed in the Federal court in New Orleans a suit that will be watched with considerable interest. Its purpose is to oust

about five hundred airplanes and is constantly receiving munitions, which come by sea from Europe from Italy, it is said. He has at least the moral support of Japan. Information from China says that Chang plans to restore the emperor to the throne and to re-establish the old mandarin regime.

MANEUVERS of the soviet Russians are complicating the situation in China. They have just signed an agreement with Chang whereby the Chinese Eastern railroad and control of the Chinese Eastern railroad has been turned over to them, putting Russia quite completely in command of the Far Eastern situation, and according to Karakhan, soviet ambassador to Peking, dealing America and the western powers a crushing blow. The former directors of the railroad have been arrested and probably will be executed. On announcement of the agreement with Chang the soviet embassy in Peking and soviet consulates general in Shanghai and elsewhere were opened and the red flag raised.

PREMIER ZAGHLOUL PASHA'S visit to London to induce Great Britain to abandon its control over Egypt and the Sudan and its protection of the Suez canal resulted in complete failure. The British government flatly rejected Zaghloul's demands. His attitude is said to be due partly to the stand taken by Australia. Prime Minister Borden of that dominion called to the government denying its right to decide on the evacuation of Egypt without the consent of the League of Nations. He said surrender of control of Egypt to incompetent natives would set Australia back a hundred years and would compel her to reconsider the whole question of adherence to the empire.

ALL arrangements were made for placing the German reconstruction loan on the market this week. The American allotment will be underwritten by a syndicate headed by J. P. Morgan & Co., Kuhn, Loeb & Co., the First National Bank and National City bank of New York, and will be \$110,000,000, or \$10,000,000 more than had been expected. In fixing the final terms the British financiers won a big victory over the Americans, for it was decided that payment in the loan should be reckoned in pounds sterling instead of in dollars. This, it is considered, will have a great influence in maintaining England's financial prestige.

PACIFISTS from all parts of the world gathered in Berlin last week for the purpose of outlining a constitution for a super-league of nations. They held a big demonstration in Potsdam which so enraged the Nationalistic societies that thousands of their members assembled there the same day and attempted to put the pacifists to rout. Professor Busch of the French Sorbonne especially aroused the wrath of the Nationalists by his plea for Franco-German amity and the cavalry was called out to disperse the mobs that attacked him. Next day, however, several well-known German generals participated in the proceedings and warmly seconded General Verraux when he declared: "A general strike of everybody, generals included, must be declared if there is another war."

The French government has approved of Germany's admission to the League of Nations, conceding that she should be recognized as a great power and granted a permanent seat in the council. But it is insisted that Germany must assume all responsibilities shared by the other powers, which means she must sign the security and arbitration protocol without reservations and agree to the execution of all treaties.

MARKET REPORT

FURNISHED BY U. S. BUREAU OF MARKETS, WASHINGTON, D. C.

Fruits and Vegetables
Potato market, show little change. Maine sacked Irish Cobblers \$1.40@1.50 per 100 lbs. in Baltimore and Pittsburgh; bulk sacked \$1.20@1.30 in New York. Bulk green mountains \$1.25@1.30 in New York. 60c l. o. b. Presque Isle, Maine. New York domestic round type cabbage \$1.00@1.10; New York yellow varieties ranging mostly \$1.00@1.10 per ton; \$1.00 l. o. b. Rochester. Onions irregular. New York yellow varieties ranging \$1.00@1.10 per 100 lbs. in eastern cities; \$1.00@1.10 l. o. b. Rochester. Midwestern yellows \$1.00@1.10 in city markets; \$1.00 l. o. b. West Michigan. New York Elberta peaches generally 50c@1.00 lower, closing at \$1.00@1.05 per bushel basket in eastern cities. Apples stock \$1.50 l. o. b. Rochester. Apple market dull. New York Wealthys weak. Eastern variety \$1.00@1.10; bushel basket in eastern cities. Delaware York Imperials \$1.25@1.40 in New York and Philadelphia. Illinois and Missouri Jonathans steady to firm at \$1.00@1.10 per barrel in Chicago.

Live Stock and Meats
Chicago hog prices from 50c to 90c higher, from \$11.50 per top and \$10.00 @10.50 per the bulk. Medium and good best steers 10c lower to 25c higher at \$10.00@11.50; butcher cows and heifers steady to 40c lower at \$7.75@9.50; light and medium weight veal calves \$1.50@2.00 lower at \$9.00@10.00; feeding lambs steady to 10c higher at \$11.00@12.50; yearlings steady to 10c higher at \$11.00@12.50; fat ewes 50c higher at \$4.00@5.00. In eastern wholesale fresh meat market, beef, veal and mutton are weak to 10c lower; lamb weak to 10c lower and pork 10c higher.

Grain
Grain market nervous but fluctuating in narrow range. Stagnant resistance to selling pressure. World's wheat export business dominant factor. Corn market lower with wheat. Rye steady after decline. Oats fluctuating with other grains. Market becoming active in preparation for United States and Canadian official crop reports.

Hay
Hay market practically unchanged. Offerings of low grades liberal and selling at prices concessions. Timothy steady with bulk of crop. Good hay scarce and making steadily.

Butter
Butter markets steady. Some what better feeling in markets due to export outlook. Further shipments have been made. Production increasing somewhat but still heavy compared with last year. Storage withdrawal fairly heavy.

East Buffalo Live Stock
EAST BUFFALO. Cattle: Strong. Hogs: Strong, heavy. \$12.00@12.50; \$11.50; pigs, \$10.00. Sheep: Strong, top lambs, \$13.00; yearlings, \$9.00@10.00; wethers, \$7.00@8.00; ewes, \$6.00@7.00; \$5.00.

DETROIT QUOTATIONS
LIVE STOCK
CATTLE—Choice heavy light steers, dry fed, \$9.00@9.25; best heavy steers, dry fed, \$7.25@8.25; best heavy weight butchers, \$6.00@6.25; light butchers, \$5.00@5.25; best heavy, \$4.00@4.25; best light, \$3.00@3.25; choice light bulls, \$4.25@4.50; choice light cows, \$4.25@4.50; stock, \$3.75@4.25; feeders, \$3.50@4.00; stockers, \$3.50@3.75; milkers and springers, \$4.00@4.50.

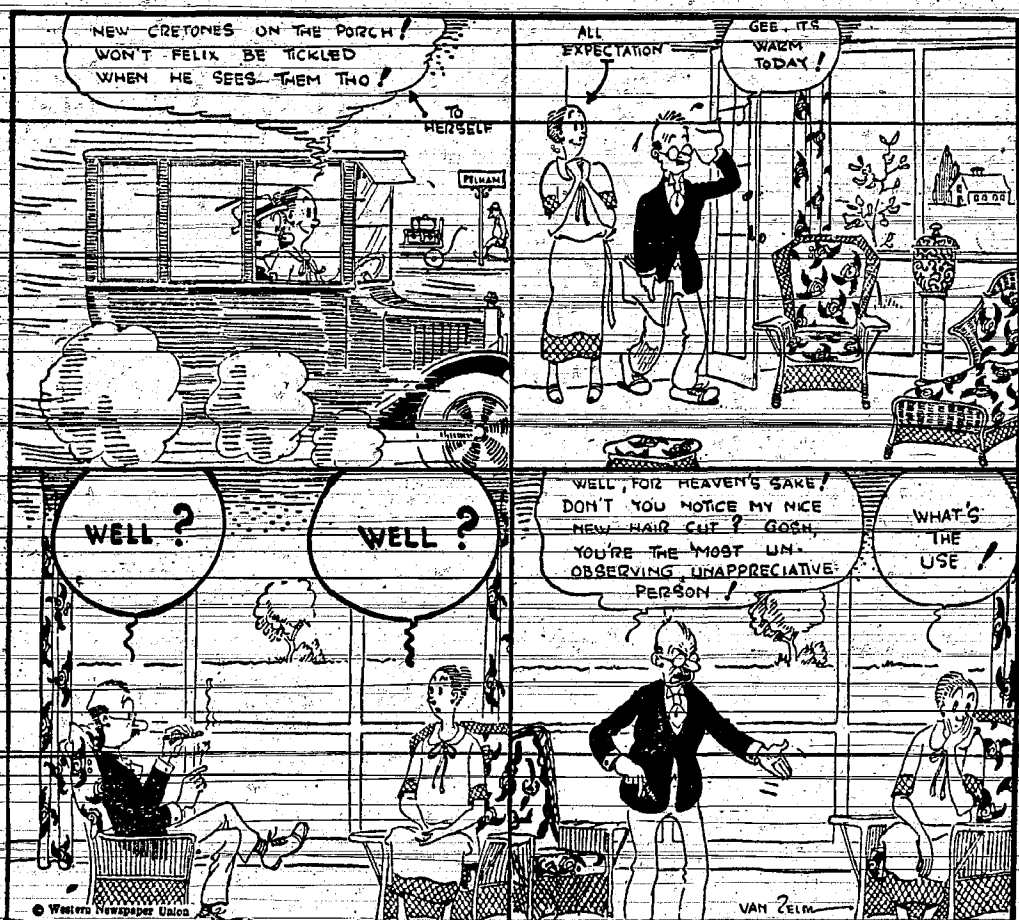

WHEAT
WHEAT—No. 1 hard, \$1.15@1.20; No. 2 hard, \$1.10@1.15; No. 3 hard, \$1.05@1.10; No. 4 hard, \$1.00@1.05; No. 5 hard, \$0.95@1.00; No. 6 hard, \$0.90@0.95; No. 7 hard, \$0.85@0.90; No. 8 hard, \$0.80@0.85; No. 9 hard, \$0.75@0.80; No. 10 hard, \$0.70@0.75; No. 11 hard, \$0.65@0.70; No. 12 hard, \$0.60@0.65; No. 13 hard, \$0.55@0.60; No. 14 hard, \$0.50@0.55; No. 15 hard, \$0.45@0.50; No. 16 hard, \$0.40@0.45; No. 17 hard, \$0.35@0.40; No. 18 hard, \$0.30@0.35; No. 19 hard, \$0.25@0.30; No. 20 hard, \$0.20@0.25; No. 21 hard, \$0.15@0.20; No. 22 hard, \$0.10@0.15; No. 23 hard, \$0.05@0.10; No. 24 hard, \$0.00@0.05; He Who Laughs First

LATEST IN KNITTED MODES; VARIETY OF STYLES IN HATS

WE ARE so apt to take for granted the good things of life, to accept them as a matter of course. In regard to present-day apparel, for instance, through the knitted arts, what a wealth of handsome, no less practical raiment is being lavished on the world of fashion these days.

No item written in the book of exquisite costuming is omitted in the realm of things knitted. Even the delicately wrought, gorgeously colored and deeply fringed Spanish shawl is ex-

EXQUISITE KNITTED SUIT

pressed through the intricacies of knitted stitch.

Just now interest centers about beautiful knitted tapestry and brocade effects, also complicated plaids, checks and stripes which once were thought possible to produce only by weaving on the loom. Jacquard patterns are attracting special style interest such as is exploited in the exquisite knitted suit here pictured.

Cheery colorings are decreed for both street and sports apparel this season. This striking jacquard pattern is developed in peach color against a white background. As an exponent of perfected knitted art, this altogether lovely suit ranks with the highest.

A chic note is introduced throughout knitted styling in that solid colored

WIDE SCOPE IN HAT STYLES

plain stitch garments are embellished with elaborate jacquard trims, wide borders being especially favored. Often the design contrasts: silk or finer against a woolen background always maintaining color-blendings as chief interest. Indeed fanciful knitted trimmings are the order of the day. Very interesting are the remarkable simulations of fur, done in yarns and zephyrs.

Toward the close of the reign of the little cloche hat it seemed that millions of women had but a single thought, and that was to get a small, close-fitting bit of headwear like that

made of corded silk and trimmed at the front with a huge rosette of rich satin ribbon having a fancy edge. None of these hats leave anything to be desired in the fine art of millinery. Black and dark brown continue the favorite colors for hats made of hatters' plush. Velvet has an extensive color range, including black and many shades of brown, with purple, orchid, fuchsia, light and dark green, strong and soft blues, the fur and pheasant colors and tones similar to henna.

When Silk Shines
Dark satin and silk often get greasy and shiny—a supershine, as it were, beyond their own natural sheen. To remedy this condition sponge it with a weak solution of borax and water. Rub very gently, moving lengthwise and not across the material. Press with a warm iron on the wrong side.

Deft Touch to Frock
When the Parisienne wears one of the severely simple, enchanting smart little frocks of black silk crepe she relieves the severity with two deft touches. One is a soft collar of ivory silk and the other is an ivory silk flower near the shoulder.

The Kitchen Cabinet

(© 1924, Western Newspaper Union.)

Great minds have purposes, others have wishes. Little minds are tamed and subdued by misfortune; but great minds rise above them. — Washington Irving.

MORE KENTUCKY DISHES

One of the oldest and most famous dishes of the Blue Grass country is:

Kentucky Burgout.—Clean and cut up six squirrels and six plump birds or young chickens, cover them with two gallons of water and let them come to the boiling point and then just simmer until the meat is very tender. Remove from the broth and cut the meat into neat pieces, discarding the bones.

To the broth add one quart of peeled tomatoes cut into pieces, one quart of green corn cut from the cob, one quart of string beans cut into pieces, one quart of lima beans, six sliced onions, one cupful of well-washed barley and another of water. Cook slowly until the vegetables are tender, then add the meat, a pint of cream, one-fourth pound of butter rubbed to a paste with four tablespoonfuls of flour, and seasoning to suit the taste. Simmer gently all slightly thick and ten minutes before serving, add a quart of oysters. The burgout under the highly seasoned to be just right, and is usual in such dishes. It is the seasoning which gives it its touch of distinctiveness.

Châumière Baked Ham.—The ham must be at least two years old, thoroughly well-cured and flavored. Scrub and scrape clean, then cover with cold water to which enough good, sharp vinegar has been added to flavor well, and leave to soak overnight. In the morning prepare a paste of two quarts of flour with water to make a mixture to put out in a sheet half an inch thick. Wrap the ham in the paste, swathing the edges and pressing them well together. Now place in a hot oven and bake until the paste is brown, then turn the ham and bake for four or five hours, according to the size of the ham. Usually one-half hour is allowed for each pound. When the baking is finished, remove the baked crust, skin and trim the ham, brush with beaten egg, cover with brown sugar and decorate with cloves, sprinkle with white pepper and mustard well mixed and return to the oven to glaze. Serve wreathed in parsley and cut in thin slices.

Half of the joy of life is in little things taken on the run. Let us run if we must, even the sands of time, for we are young and our eyes open that nothing worth while shall escape us. And everything is worth it while it is only grass, and its significance, after a while.

GRANDMOTHER'S DISHES.

When we read over some of the recipes of a hundred years ago we lose some of the assurance that our generation produced the best cooks. There is a cake named for the well-loved Marquis Lafayette which was always served covered with white frosting and decorated with an American flag in tinted icing.

Lafayette Cake.—Wash the salt from two cupfuls of butter, dry and beat to a cream, and gradually four cupfuls of sugar (the fine granulated or powdered), and whip to a white fluff. Sift six cupfuls of flour with one teaspoonful of soda and two of cream of tartar. (Three times), beat in a fresh two dozen egg whites. Add the flour and egg whites gradually to the butter and sugar mixture and flavor with a scant teaspoonful of vanilla and one-half teaspoonful of almond extract. Bake in a large loaf for ninety minutes. Half the recipe will make a good-sized cake.

Monsieur Giran's Fruit Punch.—Boil until a thick sirup is formed from three cupfuls of sugar and two cupfuls of water, cool slightly and add two cupfuls of strawberry juice, one cupful of pineapple juice, one-half cupful of orange juice, the same of lemon juice, and one quart of water. Chill for several hours, then serve in a punch bowl poured over orange water-ice.

Rice Waffles.—Mix one cupful of well-boiled rice with a tablespoonful of butter and one-half teaspoonful of salt, add a pint of milk, two well-beaten eggs, and flour to make a thin batter mixed with two teaspoonfuls of baking powder. Beat well and bake on a hot waffle iron. Honey may be used in place of the rice.

Kentucky Beaten Biscuit.—Sift a quart of flour with a teaspoonful of salt, two tablespoonfuls of lard, rubbed in well, and then a pint of milk, water or a mixture of both, poured on gradually, and the dough, which should be rather stiff, is kneaded well. Place on a firm biscuit block or board and beat for half an hour with a rolling pin or a wooden mallet. Knead it again when the beating is finished and beat again ten minutes. Roll out, cut into biscuit half an inch thick, prick with a fork and bake in a moderate oven fifteen minutes. They should be a light brown when well baked.

Nellie Maxwell

Safe
First Tramp—Dat last place I dined at was a preacher's. He told me dat we would be judged by our work in de hereafter.
Second Tramp—Den we're all right. We never done any work.

Uncle Pennywise Says:
I wish I knew what a fly likes to eat. I'd provide a side dish for him. As it is he samples everything and sticks to nothing. —Atlanta Constitution.

HELPED HER IN EVERY WAY

So Writes Mrs. Trembley of Sharon, Vt., Concerning Lydia E. Pinkham's Vegetable Compound

Sharon, Vermont.—"I was weak and run-down, had a tired feeling and bearing-down pain. I saw an advertisement in the newspaper about Lydia E. Pinkham's Vegetable Compound and began taking it. It has helped me in every way. I have so much faith in it that I have the opportunity to recommend it whenever I have the opportunity." —Mrs. Lawrence Trembley, Sharon, Vermont.

Glaid to Help Others
"I had pains in my back and sides for many months, and my work was made to be left undone at those times. My sister told me what good Lydia E. Pinkham's Vegetable Compound was doing her, so I tried it, and from the third bottle I was well and every one thought I looked better. I am glad to help others regain their health and to use my testimonial." —MABEL HARMAN, 1824 Greene Ave., Brooklyn, N.Y. You must believe that a medicine that has helped other women will help you. You should try it.

Skin so sore could not touch water to it
Resinol relieves it within few hours

Washington, D. C., Aug. 25.—"I am so grateful to you for your splendid product and for what it has accomplished for me that I feel I must give you the details."

In attempting to improve the appearance of my chin, I used a soap which had been recommended for that purpose, but which proved to be too harsh for when I washed off the latter, the skin came with it. I applied cold cream, but the damage was too severe to yield to so mild an agent. My husband consulted our neighborhood druggist and asked if it would not be advisable to ask our family doctor. The druggist said: "You do not need a doctor in this case. Get a jar of Resinol Ointment and a cake of Resinol Soap and have your wife use them according to directions—they will heal everything else blemished ways." So my husband bought the Resinol products and hopefully brought them home.

My skin was so tender and sore that I could not touch water to it, so I cleansed it gently first with pure olive oil and then applied the Resinol. I used a soft towel to dry that night for protection. In the morning, I bathed it gently with warm water and Resinol Soap, rinsing off with tepid water, and I could hardly believe that such a miracle of healing could occur during one night. The raw surfaces had faded away and now looked only like a bad case of sunburn. I kept my face anointed with Resinol all that day and by night the improvement was so great that I was able to go out.

This experience is now only a memory for me, but the fact that Resinol is my best friend in the future and I will never be without it." (Signed) Mrs. C. P. Tapley, 1023 8th St., N. W.

DR. HUMPHREYS' "77"

For Grip, Influenza, COLDS

Protect yourself from colds, and the grip, by Dr. Humphrey's "77". It goes direct to the sick spot. Keep your body warm, break up colds that hang over the home treatment of disease. Ask your druggist for "77", or write us. **FREE** Dr. Humphrey's Manual (16 pages) will tell you how to use "77" for the home treatment of disease. Ask your druggist, or write us for a copy. Dr. Humphrey's "77" is sold at all drug stores or sent on remittance (our risk) for \$1.00, parcel post. **HUMPHREYS' MEDICINE CO.** 77 N. 7th Street, New York.

No Passports for Russians

The commission of internal affairs at Moscow has forbidden the issuance of further passports to Russians desiring to go to the United States, the number of applications being more than five times the American immigration quota of 2,248. The Baltic and other ports are crowded with Russians anxious to sail for America, but the majority of these will be forced to return home.

Get Back Your Health!

Are you dragging around day after day with a dull backache? Are you getting tired and run-down? Do you have headaches, dizzy spells and sharp, stabbing pains? Then there's surely something wrong. Probably it's kidney weakness! Don't wait for more serious kidney trouble! Get back your health and keep it. For quick relief get **Doan's Pills**, a stimulant diuretic to the kidneys. They have helped thousands and should help you. Ask your neighbor.

A Michigan Case
John J. Farnes, railroad engineer, East Jordan, Mich., says: "My back was lame and sore and severe aches took me when I wanted to move. Morning I felt so I tried I could hardly get up. Night the secretions passed often and were painful and contained sediment. Doan's Pills and they put me in good shape."

DOAN'S PILLS
STIMULANT DIURETIC TO THE KIDNEYS
Foster-McMillan Co., Mfg. Chem., Buffalo, N.Y.

IN THE STUDIO.

For the love of Mike! You've smoked all the cigarettes again. Yes, old chap; I think so much of you I always take your part.

A CHESTER-FIELD.

Gee, dis fashion book sez square crowned dobby will be "de rigueur" next season. —Spose I gotta get my lid reblocked.

OH!

Mamie! So your brother said I was a peach? —Johnnie: Yes—but he said he thought he'd "can" you.

No Cordella, cabinet ministers do not deliver sermons in a cabinet.

Common sense is not so common after all.

'Tis not what we have but what we enjoy that makes us happy.

Vote "No"

On The Proposed Income Tax Amendment

THE REASONS MULTIPLY

It would destroy the very basis for the present Railroad Taxes, and Public Utility Taxes generally, for which the people fought for years in the days of Pingree, and enable them all to escape all taxes, except those levied locally under the general law, until this proposed amendment, if adopted, be repealed or amended by the people, at a general election.

Up to Pingree's time the State Constitution required a uniform rule for assessing taxes, as follows:

"Sec. 3. The Legislature shall provide by law a uniform rule of taxation, except on property paying specific taxes, and taxes shall be levied on such property as shall be prescribed by law."

After a long fight, it was amended by adding the following clause:

"Provided that the Legislature shall provide by law a uniform rule of taxation for such property as shall be assessed by the State Board of Assessors, and the rate of taxation on such property shall be the rate which the State Board of Assessors shall ascertain and determine is the average rate levied upon other property upon which ad valorem taxes are assessed for State, County, Township, School and Municipal purposes."

That clause is there today, and has been sustained by the courts, after protracted litigation. It is the only constitutional basis for millions of dollars of railroad and other public utility taxes, annually, which will have no basis whatever if this proposed amendment be adopted, for it puts the proposed income tax provision in the place of the above provision, NOT BELOW IT. The effect is substantially to reduce railroad taxes and other public utility taxes, which form the resource for a large part of the Primary School Fund.

Do the farmers want this gap filled by additional real estate taxes?

This proposed amendment is beyond belief, I agree. Several here would not believe it; when this discovery was made, until a trusted man was sent to Lansing to examine the proposed amendment. However crazy a proposal it is, it has been put under way and there is no way to escape its effect, if the proposed amendment be adopted.

I have the written opinion of a well-known and high class lawyer, a copy of which will be mailed on request. It gives the whole story and the writers have verified the facts.

A sorry mess the State will be in if the proposed amendment be adopted. TAKE WARNING, EVERY TAXPAYER.

FREDERICK W. STEVENS.

The new STUDEBAKER DUPLEX

—two cars in one!

For the first time an open and closed car combined at strictly open car price

This combination of features found in no other car:

The New Duplex Phaeton Body—it solves the closed-open car problem.

Genuine Balloon Tires—20 x 6.20 inches.

New Satin-Lacquer Finish—Spanish chrome tanned leather upholstery.

New Idea in ease of operation and control.

Vibrationless Engine; forced-feed oiling system with new idea in oil supply.

Four-Wheel Hydraulic Brakes optional—equally like any other system on American cars. Automatic braking pressure.

Special Six DUPLEX-PHAETON \$1495

AT LAST—THE DUPLEX! An entirely new type car created by Studebaker. By simply drawing down the roller-side enclosures, it may be changed from an open car to an enclosed car in thirty seconds.

For the first time in history, a car which completely meets the requirements of year round motoring.

Use it rain or shine, winter or summer, twelve months in the year. It is like owning two cars!

And the price is no higher than the old-time open car.

Framed and shaped in steel, the upper section of the Duplex body is built integral with the lower part.

Thus its beauty is permanent like that of a closed car.

Its long, low sweeping lines—

deeply crowned fenders—beautiful hood and radiator—all completely harmonize. For the Duplex is designed and built as a unit by Studebaker.

And with this double value you have Studebaker mechanical superiority which means abundant power—effortless operation—new ease of gear shifting—powerful brakes—velvet clutch action and notably easy steering.

In addition there is a multitude of improvements and refinements that bring a new sense of satisfaction to motoring.

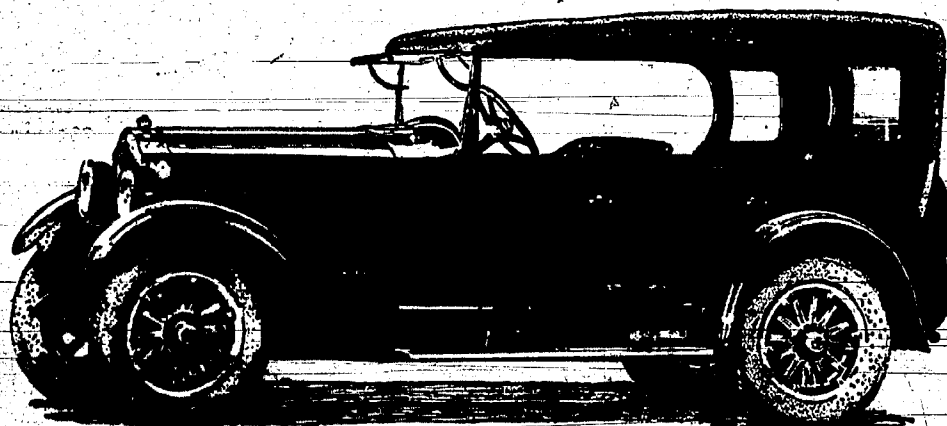

The Duplex models are an exclusive Studebaker creation—they are available from no other maker!

Come in and inspect these new Studebakers. See the latest development in motor-cars.

Harry E. Simpson Dealer

THIS IS A STUDEBAKER YEAR

RED CROSS YEAR'S COST \$21,366,255

Nearly \$12,000,000 Devoted to Helping Victims of Great Japanese Earthquake.

OVER 3,000 BUSY CHAPTERS

Aid to Disabled War Veterans Paramount and Reaches Nearly \$4,000,000.

Washington.—More than \$21,000,000 was the total of funds expended in all activities of the American Red Cross during the last fiscal year, ended June 30, says a statement issued by the National organization. This expenditure was almost one-sixth of the amount of money disbursed by the Red Cross in the war years—July, 1917, to June, 1918.—Of this extraordinary sum \$11,631,303 was America's contribution to the Red Cross for relief of the Japanese earthquake victims. This was increased to \$11,765,803 by appropriations from general funds of the Red Cross, and it represented probably the largest spontaneous outpouring of beneficence of a single nation in the history of the world.

Over 3,000 active Chapters expended during the year \$4,569,000. The National organization disbursed \$16,497,855.35, making the total \$21,366,255.35—all for humanitarian work which reached practically around the world.

In announcing the year's record of American Red Cross industry the executive officials at Washington emphasized the fact that the extensive and never-halting work of the Red Cross depends almost wholly upon the nationwide support of the organization from the memberships enrolled during the annual roll call which this year will be in progress from Nov. 11 to 27, when everyone is asked to join or renew their membership in the American Red Cross.

Soldier Service Paramount—Service in behalf of the disabled veterans of the World War and their families is a paramount obligation of the Red Cross. The organization, through its Chapters, is constantly in touch with this duty in 2,605 communities throughout the United States—the Chapters alone during the year expended in service for veterans about \$2,000,000. The National organization expended \$1,735,825—a total of \$3,735,825 applied to assisting war sufferers toward recovery from disability and distress.

This work is constant in hospitals, sanitariums, camps, soldiers' homes, in the community. For example, in helping disabled men and women in places where they were transient residents—\$173,076 from national funds alone was required to help solve their problems. Every Red Cross service is ever-at-hand ready to meet the individual need of these men and women.

The enlisted men in the Regular Army, the Navy, and the Marine Corps, with their home ties, mean a never-ending Red Cross service which figures cannot fully interpret. In this work a total of \$635,285 was applied in meeting an obligation under the Red Cross charter which has been fulfilled for over 20 years.

Domestic Operations Extensive—In the past year Red Cross operations were almost wholly confined to continental United States and the insular possessions. Relief work following disasters called for immediate activities in 192 places and a total of \$737,603.87 was spent in this service alone. In 33 major disasters trained workers were kept at the work of rehabilitation for many months.

In carrying on the health activities a total of \$444,886.66 from Red Cross national funds, and \$808,000 from Chapter treasuries—approximately \$1,252,886 in all—was applied, giving some idea of the extent of Red Cross service in the fields of public health nursing, nutrition instruction, and spreading knowledge of personal hygiene and care of the sick in the home.

For advancing the cause of human safety, the First Aid instruction, taught by Chapters and over extensive national territory by the Red Cross instruction, car covering trunk line railroads, and in teaching water-safety and increasing the membership of the Red Cross Life-Saving Corps, the total cost was \$288,234.71, of which \$214,234.71 came out of national funds.

Army of Over 5,500,000—The Junior Red Cross in the schools—with over 5,500,000 in its ranks—was aided with \$238,510.78 to which it is estimated the Chapters added some \$277,000—a total of \$515,510.78. In various other domestic activities the Red Cross spent \$285,478.19, and the Chapters in their numerous voluntary services expended an additional \$1,048,000 during the year.

Foreign Obligations, aside from Japan, were met with national funds as follows: Relief of refugees in Greece, \$200,837.18; Junior Red Cross projects, \$99,579.75; League of Red Cross Societies, \$165,000; other in similar and foreign work, \$221,555.31. The American Red Cross budget for 1924-25 is \$4,647,790.85, or \$866,286.96 less than the budget for the year ended last June 30.

In good deeds for all peoples in time of distress the American Red Cross never rests. Help this work with your membership dollar—join on Armistice Day.

But Few Streams—Along the entire Lower California coast line, longer than from Key West to Boston, there is only one all-the-year-around stream entering the sea.

Riches and Poverty—The embarrassment of riches may be great, but it is as nothing compared with the embarrassment of poverty.

Nary a Rare Bird Unknown—From the Mexican boundary to the Arctic ocean there is not a species of bird that is not classified. It is claimed.

ELIZABETH COOPER AT CONNY ISLAND.

(Continued from first page.) seem to get the idea of lining up to get waited on.

We discovered a delightful open air restaurant on the boardwalk, where we ate more hot dogs and watched the ships pass out of the channel on their way to foreign ports. This same restaurant continues thru a series of tea gardens and small rooms of different periods to a large open air restaurant fronting on Surf avenue, where right among the tables they have an immense Merry-Go-Round. I'll bet you would go a long way before you'd find another eating place like that.

One well patronized thing of torture was a new-fangled ferris wheel. It stands about 100 feet high, with an inner and outer circumference about 12 feet apart. The cages for passengers are swung on a curved track between these two rims, and as the wheel turns upward gravity swings the cage into the inner circle, and as they come down they swing out again, with much jerking, and screaming. They all sounded scared to death, and yet those who could get on stayed and stayed, much to the disgust of those waiting in line for tickets.

Towards dusk we entered Luna Park, (one of the two amusement places), where Young Italy had the time of his life. I tried hard to be very dignified, but what can you do with a giggling pointing child dragging one onto every conceivable thing for a ride. The worst ups and downs of all were on the Mile Sky Chaser—on the idea of a roller coaster, with variations to fit the requirements of the younger generation. One of the best patronized amusements was a slide from a height about equal to a third story window. There were terrifying bumps and bends in it, but it was popular with the children. The Pit, where there was every kind of excitement, was very popular. I imitate every motion of a seaship. There were steps that fold up when you stand on them, and steps that don't fold up when you think they will, a floor that looks innocent enough, but is made of ball bearings which roll under your feet, mirrors that get you all mixed up as to who you are or where you want to go, a revolving floor that is much too much, and a dozen other things.

By the time we were all tired out it was after dark, and the fairy touch of night and lights had to be left for the trip home. We came back by bus, thru the residential section of Brooklyn and across Williamsburg bridge, where the traffic was dreadful. From two cables about a foot thick, there is suspended a heavy steel bridge, with two levels of subway and street car tracks between the cables, and two roadways extending outside the cables, with three lines of traffic in each direction. I couldn't help feeling more comfortable when we got into the car, and a little extra touch was added when a traffic cop sent the bus up a side street, thru the very heart of the congested "Lower East Side." The people just swarmed along the sidewalks, and instead of autos being parked in the streets, there were baby carriages parked along the sidewalk, just about as thick as you could line them up. In some places, pedestrians had to go in single file because of the parambulators. Thru lighted-up windows we caught a glimpse now and then of whole families working or bright bits of cloth. And, finally, then and there I promised myself that sometime soon I would go back to those crowded streets and find out more about that strange corner of the city.

In no time at all we were home, sleepy Little Italy was in bed across the street, and I am wondering how I can ever tell you about the sights, the lights, the smells, the sounds, and the real carnival spirit that is Conny Island.

Elizabeth Cooper.

Concerning Parrots
Of the 20 commonly known varieties of parrots, the most talkative ones, according to George Bruce Chapman, head of a London house that has imported and sold the birds for more than a hundred years, are the Brazilian Amazon and the African Gray. The former has bright blue and yellow feathers and red tips to the shoulders and flight wings. The African Gray has a red tail. In Brazil natives watch the nesting places and when the nestlings are a few days old, the feathers are a few wings are trimmed. Later these birds are easily captured, placed on perches and taken to the nearest village. Fan-fanciers say that the birds should be fed twice a day, and with proper care will live 30 years.

Silk Worms Weave Dyes
A French scientist has succeeded in making silkworms weave dress dyes into their own output. He is reported to have injected dyes into the cocoon and the result was colored threads being spun. Not only the ordinary shades, but the tones and hues that are made from combining various tints, are produced by the little workers receiving treatment by this process. Silk is usually dyed after it has been wound and twisted into floss, but the new method is expected to grow it in colors that will not fade.

A Conundrum
In moving and settling down the Dodge family had subsisted on short rations, and one morning Mrs. Dodge found herself facing an unknown deficit.
"Marry," she said to the maid-of-all-work, "what is there in the store-room?"
"Every blessed thing is given out but the tea and coffee," Mary informed her, "and sure they will, if they last long enough."—Everybody's Magazine

PROBATE NOTICE

STATE OF MICHIGAN,
The Probate Court for the County of Crawford.

At a session of said court, held at the probate office in the Village of Grayling in said county, on the third day of October, A. D. 1924.

Present: Hon. George Sorenson, Judge of Probate.
In the matter of the estate of George W. Lelene, incompetent person, residence, Township of South Branch, said county.

Julius Ausum, guardian of said George W. Lelene, having filed in said court his petition, praying for license to sell at private sale the interest of said estate in certain real estate therein described and which is situated in the Village of Rosecommon, County of Rosecommon and State of Michigan.

It is ordered, That the 27th day of October, A. D. 1924, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that Julius Ausum, Guardian of said George W. Lelene, and including all persons interested in said estate appear before said court at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Crawford-Avalanche, a newspaper printed and circulated in said county.

George Sorenson,
Judge of Probate.

NOTICE OF SHERIFF'S SALE

Notice is hereby given that by virtue of a writ of execution issued out of the circuit court for the county of Crawford, dated September 17th, 1924, in favor of Paul R. Dinmore, plaintiff, against Ed Feldhauser, defendant, in said county to mediate and delivered, I did, on September 27th, 1924, levy upon and take all the right, title and interest of the said Ed Feldhauser in and to the following described real estate, to wit:

All that certain piece or parcel of land being and situated in the Township of Maple Forest, county of Crawford and State of Michigan to wit:

The west one-half (1/2) of the northeast quarter (1/4) of section twenty-eight (28) township twenty-eight (28) north, range three (3) west containing eighty (80) acres more or less, according to the government survey.

All of which I shall expose for sale at public auction to the highest bidder at the front door of the court house in the village of Grayling in said county, (that being the place of holding the circuit court for the county of Crawford) on the 18th day of November, 1924 at 1:00 o'clock in the afternoon.

Dated September 29th, 1924.

Peter F. Jorgenson,
Sheriff, Crawford County.

CONSTIPATION

A congested colon, inactive lower bowel, result in harmful clogging, and prevent the daily movement so necessary to good health.
CHAMBERLAIN'S TABLETS
Take one tonight, and you will find there is more real relief from physical distress, more health, happiness, vitality, mental and bodily vigor in just one bottle of CHAMBERLAIN'S TABLETS than you ever dreamed of.
Only 25 cents and sold everywhere.

CATARRHAL DEAFNESS

Is often caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running ear, at times accompanied by pain. Unless the inflammation can be reduced, your hearing may be destroyed forever.
HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh. It is a medicine caused by Catarrh. HALL'S CATARRH MEDICINE has been successful in the treatment of Catarrh in all its stages.
J. J. Conroy & Co., Toledo, O.
